

NCS Superior 980 Display - Cascade

NCS Superior Cascade is the most space- and cost-effective display solution with its stripe-coated colour chips. This selection features a combination of best-selling colours from the industry and a complete spread of colours from the NCS Standard Colour range. Perfect point-of-sales solution in combination with the corresponding best-selling NCS Cascade 980 fan deck. The colour chips can easily be ordered online for refill.

- Based on best-selling colours
- Space- and cost-effective solution
- Matches with the NCS Cascade 980 fan deck

Arranged by hue

Arranged by nuance

HOW THE COLOURS CAN BE ARRANGED

Choose between two arrangements, all symmetrically distributed in the NCS Colour Space:

- HUE Colours flow from yellow to red, blue and green.
- NUANCE Colours flow from pale white colours, to strong bright colours.

INCLUDED IN THE PRODUCT (COMPLETE SET)

- All parts to assembly the wall mounted display
- NCS Cascade colour chips to top up the display
- Mounting instructions

WHY AN NCS PRODUCT?

The NCS System is the only colour system on the market 100% based on visual perception of colour. We take pride in our production process and high quality. All our colour chips are coated, not printed.
